

Curriculum Model

Our current curriculum documents detailing implementation methods and curriculum policy can be read [here](#). This whole school curriculum is currently being reviewed and updated. Curriculum Hub statements of intent can be found [here](#). Curriculum documents will continue to be made available as the curriculum evolves and is further reviewed. SMSC , RE, SRE Policies can be found [here](#).

Each pupil has an individual curriculum which is regularly reviewed by a Curriculum Champion. The curriculum is managed by purposefully grouping the discrete subjects of the National Curriculum into learning areas called 'Hubs.' This enables our provision to be mapped and delivered appropriately for each of our learners, ensuring relevant breadth and depth of learning as identified and prioritised within the Educational Health Care Plan.
